**LED T8 Tube Specification**

|                   |                              |
|-------------------|------------------------------|
| Model Number      | LEIT8-33W2400-277V-xxxxK-xxx |
| Length            | 8 foot                       |
| Power Consumption | 33W                          |
| the size of LED   | SMD2835 led chip             |
| SMD LED           | 120                          |
| Input voltage     | AC100-277V                   |
| Frequency         | 50/60Hz                      |
| Efficiency        | 120LM/W                      |
| CRI               | >80                          |
| PF                | >0.95                        |
| THD               | 20%                          |
| CCT               | 4000K, 5000K                 |
| PC Cover          | Frosted                      |
| Beam Angle        | 120 degree                   |
| End cap           | G13/R17D/Rotatable G13/F8A   |
| Certificate       | cULus                        |
| Warranty          | 5 years                      |
